Carryover the figures for the cumulative net and gross receipts and percent hold from the last line to the next LG752 for this operator

- 1. On the first line for the first activity:
- a. Enter the date and site.
- b. Skip columns A and B.
- c. Enter the net receipts in column C.
- d. Enter the gross receipts in column D.
- e. Divide net receipts (column C) by gross receipts (column D). Enter the % amount in column E.
- 2. On the next line, for the next activity:
- a. Enter the date and site.
- Enter the net receipts in column A.
- c. Enter gross receipts in column B.
- d. Add the amount from column A to the previous figure in column C. Enter amount in column C.
- e. Add amount from column B to the previous figure in column D. Enter the amount in column D.
- e. Divide column C by column D. Enter the % amount in column E.
- 3. Follow the instructions in item 2 for all subsequent paddlewheel table activity.

NOTE: Do not add the % figures in column E.

4. Keep this form with your organization's records.
